

## Declaration of Copyright Sharing

Editor of Acta Médica Portuguesa,

The authors certify that the manuscript entitled **New Insights into the Role of Tissue Eosinophils in the Progression of Colorectal Cancer – A literature review** (AMP ID 10112) is original, that all statements presented as facts are based on the research of the authors, that the manuscript, either in whole or in part, does not infringe any copyright and does not infringe any privacy right, which has not been published in whole or in part, and has not been submitted for publication in part or in whole in another journal, and that authors have the right to copyright.

All authors declare that they have participated in the work and are responsible for it. They further declare that there is no conflict of interest on the part of any of the authors in the statements made at work. The authors, when submitting the work for publication, share with Acta Médica Portuguesa all rights to the copyright interests of the article.
