

Genre	Reason for refusal_Altered coagulation	Hepatitis	2nd degree AV block	Use of hipocoagulant
Current age	Reason for refusal_Active drinking	HIV	3rd degree AV block	Use of antiplatelets
Age at surgery	Reason for refusal_patient with deep brain stimulator	SND	HPT 1st	
BMI	HBP	Aneurism	HPT 2nd	
Smoker	Dyslipidemia	ICD	HPT 3rd	
Alcoholic beverage consumption	Obesity	HCD	AoVI	
Hernia location	T2DM	DCM	MiVI	
Large hernia	AF	Pericarditis	TriVI	
Declined by	OSA -BiPAP	VTE	Rheumatoid arthritis	
Reason for refusal_Hernia size	OSA-CiPAP	PVI	Ankylosing spondylitis	
Reason for refusal_previous post op instability	CKD	Coronary disease	Epilepsy	
Reason for refusal_cardiac	GERD	CABG	Parkinson disease	
Reason for refusal_Pulmonary	Gastritis	Asthma	Goiter	
Reason for refusal_OSA	PUD	COPD	Urinary incontinence	
Reason for refusal_CVRF	Previous malignant neoplasia	HP	Homocystinuria	
Reason for refusal_CKD	Thrombophilia	PHT	FAP	
Reason for refusal_Post op dyspnea	Prior surgery same hernia	Cirrhosis	Brugada syndrome	
Reason for refusal_Autoimmune disease	Prior surgery other hernia	Portal HT	Implanted stent	
Reason for refusal_previous post op ICU care	Prior abdominal surgery	Kidney transplant	Pacemaker carrier	

Reason for refusal_Psychiatric pathology	Prior extra abdominal surgery	Liver transplant	ICD carrier	
Reason for refusal_need for pre op analytical optimization	Stroke	Peritoneal dialysis	Type of anesthesia	
Reason refusal_Difficult OTT	ACS	Haemodialysis	Mallampati grade	
Reason for refusal_Parkinson's disease	AMI	1st degree AV block	ASA status	

BMI: body mass index; OSA: obstructive sleep apnoea; CVRF: cardiovascular risk factors; CKD: chronic kidney disease; ICU: intensive care unit; OTT: orotracheal tube; HBP: high blood pressure; T2DM: type 2 diabetes mellitus; AF: atrial fibrillation; GERD: gastroesophageal reflux disease; PUD: peptic ulcer disease; ACS: acute coronary syndrome; AMI: acute myocardial infarction; SND: sinus node disease; ICD: ischemic cardiac disease; HCD: hypertensive cardiac disease; DCM: dilated cardiomyopathy; PVI: peripheral vascular insufficiency; CABG: coronary artery bypass graft; COPD: chronic obstructive pulmonary disease; HS: hypersensitivity pneumonitis; PHT: pulmonary hypertension; HT: hypertension; AV: atrioventricular; HPT: hyperparathyroidism; AoVI: aortic valve insufficiency; MiVI: mitral valve insufficiency; TriVI: tricuspid valve insufficiency; FAP: familial adenomatous polyposis; ICD: implantable cardioverter defibrillator; ASA: American Society of Anesthesiologists
