

To the Reviewers of Acta Médica Portuguesa

Aos Revisores da Acta Médica Portuguesa

Rui Tato MARINHO^{1,2}, José Manuel SILVA^{3,4}
Acta Med Port 2014 Jan-Feb;27(1):151-153

Between January the 1st and December the 31st 2013, Acta Médica Portuguesa received 588 submissions through the electronic platform of editorial management (Open Journal System). From these, 146 were published in our 6 regular editions. During the same period, 252 peer-revision processes were completed.

The decision process for manuscript publication is complex and we aim to benefit our readers by contributing to research and clinical practice innovation, within the concept of modern scientific authorship. In this context, your contribution as experts is fundamental.

Acta Médica Portuguesa is the only indexed Portuguese medical journal with a general scope, an audience of approximately 45.000 Portuguese doctors, as well as other health professionals, reaching out to the general population. As such, the contribution of experts in several areas is crucial, supporting and identifying the most relevant issues, commenting on the relevance of the proposed studies and emphasizing innovative lines of the presented methodologies, amongst others To all and every one of you – that continuously maintain full recognition of 'Peer-Review' as a duty of the scientific community – a sincere acknowledgement of the Portuguese General Medical Council and Acta Médica Portuguesa.

Lisboa, 2nd of January 2014

Rui Tato Marinho
Editor-In-Chief

José Manuel Silva
President of the Portuguese Medical Association

We have listed here below all the reviewers who carried out reviews per our request during year 2013.

Reviewers who concluded 12 or more reviews:

Jorge Crespo

Reviewers who concluded 3 or more reviews:

Alexandre Amaral Silva	Ivo Furtado	Lino Gonçalves
António Augusto Martins	João Eurico Fonseca	Luís Soares Almeida
António Sarmento	João Massano	Luísa Pinto
Diogo Telles	João Sequeira Duarte	Ricardo Taipa
